

Course in the Safe Removal & Disposal of Asbestos

Overview

This course provides participants with knowledge of the *National Code of Practice for the Safe Removal of Asbestos 2nd Edition [NOHSC: 2002(2005)] (Asbestos Removal Code)*. It is designed to assist them to meet the requirements of Queensland's Department of Employment and Industrial Relations' (DEIR) *Workplace Health & Safety Regulation (1997)*, which requires the prescribed activity of asbestos removal work in Queensland to be supervised by a "Competent Person".

Entry Requirements

Participants must:

- Be at least 18 years of age or older; and
- Have at least an intermediate level of numeracy, literacy and communication skills.
- Have completed the Workplace Health and Safety Core Modules or Representative Course within the last 12 months¹

Delivery

Formal training and assessment for this course is delivered across three (3) days of face-to-face classroom and practical activity sessions.

Units of Competency

There is one (1) unit of competency associated with this course:

- ASBSAF02 Safe removal and disposal of asbestos

Outcomes

It is expected that competent participants should be able to:

- Identify and consult with relevant stakeholders, identify and review the workplace register of asbestos containing materials, develop an asbestos management plan, establish job specifications and identify and apply any relevant legislation, standards and codes of practice
- Provide licensing details and requirements to clients, identify and instruct site personnel on work activities, establish communication plans and identify the competencies of the site personnel to appropriately assign work activities
- Prepare and maintain training plans relevant to work activities and establish health surveillance programs
- Identify ACM locations and develop an asbestos removal control plan
- Prepare emergency plans, specify decontamination requirements and assess risks associated with the disposal of ACM
- Carry out the removal and disposal of ACM in accordance with NOHSC 2002 (2005)
- Carry out site clean up in accordance with NOHSC 2002 (2005)

Upon successful completion of this course participants will receive a Statement of Attainment in completion of 30764QLD Course in the Safe Removal & Disposal of Asbestos.

N.B. Completion of this course does not entitle participants to automatic competency as a "Competent Person" for the supervision of asbestos removal work. Additional requirements and criteria as stipulated by DEIR's Workplace Health & Safety Queensland (WHSQ) division must be satisfied.

¹ Practising Workplace Health and Safety Officers are eligible for completion of course

Assessment Requirements

Participants will be required to successfully complete a series of assessment tasks which will include a simulated asbestos removal activity, written exam, case studies, oral presentation and the completion of a work method statement for asbestos removal, asbestos removal control plan and/or a construction safety plan.

Recognition of Prior Learning (RPL) / Credit Transfer

Prospective participants may be eligible to receive RPL or credit transfer depending on whether they have any previous industry experience or hold existing qualifications. Applicants should speak with CSTC prior to course commencement to discuss these options further.

How to Enrol

Interested applicants should download a copy of the New Student Application Form from our website and submit it with payment to their local CSTC office. Payment options are provided on the reverse side of the application form, and course prices listed on the Course Dates Brochure are subject to change without notice.

Course Dates & Fees

Dates and fees associated with this course are provided separately on the Course Dates Brochure specific to each training location. These brochures can be downloaded from our website.

Refund Policy

The Refund Policy confirms that refunds are provided (as appropriate) within an acceptable time frame. In all instances, a full refund of enrolment fees will be made to the payer if training is cancelled by CSTC for any reason. Please refer to CSTC's website for further information regarding refunds and cancellations.

Competent Person

For participant seeking competent person a fully details resume must be submitted. The resume must include:

- Personal details
- Brief outline of past working history
- Description of at least three main projects directly undertaken under your supervision
- Asbestos removal control plan
- Support information
- Statement that the information provided in this document is "true and correct"

If the resume is deemed to be compliant with information AR2 the successful applicant will be issued with a certificate as a Competent Person in Asbestos Removal.
